

Using Tableau Public

Oxford University make available to the general public several interactive views showing statistics for both Undergraduate Admissions and Students on course. These reports are normally updated on an annual basis.

Links from the University website direct the user to the reports hosted by [Tableau](#) on their [Public platform](#).

Tableau Public allows you to view reports in your internet browser. There are restrictions in place on downloading the data, but you can:

- Use **filters** to see the data that is relevant to you.
- Print views as **PDFs**.
- Export views as **images**.
- Share the view with others by embedding the view into your own web page or sharing a direct link.

Opening a view

Clicking on a link from a webpage will open the view. The report may open in a new window in your browser.

The views work in all major browsers and operating systems.

The views will display on mobile devices, but the small screens do not deliver an optimal experience.

Due to the complexity of the data shown, the view may take some time to load.

Navigating between worksheets

Some reports contain are multiple worksheets; you can use the tabs along the top to move between them:

Interacting with data

Tooltips: All data points have a tooltip. If you hover your mouse over the mark, you will see information about the data point.

Hierarchies: Some columns or rows are hierarchical.

These allow you to drill in or out to see more or less data. Clicking on the symbols will

open or close the hierarchy.

Full Details of Domicile, 2015

UK	England
	Northern Ireland
	Scotland
	United Kingdom
	Wales
	Total
EU	Austria
	Belgium
	Bulgaria
	Croatia
	Cyprus (European Union)
	Czech Republic
	Denmark

Filter data

Worksheets have **Filters** that allow you to display just the data in which you are interested.

Select the options you want from the filters. If the display is empty, it is likely that your filter choices return no information.

Select a Year: 2015
